Rayli Raykov

Full Stack Developer

Email: rayli.raykov@gmail.com
Cellphone: 215-667-0266

My name is Rayli Raykov. I am a self-taught programmer/coder who lives in the Philadelphia area. Coding creates challenges and hurdles that are hard to tackle but give me the chance to find elaborate ways to solve them. Through a lot of time, consistency and discipline, I taught myself the essentials to start up my own freelancing career and pursue further opportunities in this industry.
